

South Australian Space School

SASS aims is to provide a stimulating and rewarding educational experience for Year 10 students in South Australia and a focus for them on a career in science, engineering, aviation and astronomy. With the recent establishment of the Australian Space Agency in Adelaide, opportunities in the space sector are within easy reach.

Since 1998 the Sir Ross and Sir Keith Smith Fund (Smith Fund) has provided sponsorship funding for the South Australian Space School (SASS).

Students are able to:

- Take part in science investigations including building and launching model rockets at Hamilton Secondary College Space School
- Undertake tours of the Adelaide University Moon lab
- Visit the Defence Science & Technology Group
- Hear inspiring talks about careers in space science, physics, engineering, life sciences and learn about the Australian Space Agency based in Adelaide
- Visit the Australian Space Agency Discovery Centre
- Visit the RAAF Base at Edinburgh and be escorted through various testing facilities and aircraft
- Participate in a Mission to Mars at Hamilton Secondary College
- Visit the new Planetarium at Hamilton Secondary College.
